### Virtual Coffee Meetings

The best way to stay connected is by catching up with your team members! Organise virtual coffee meetings to take a break and socialize.

### A Colour A Day

Make video calls a bit more interesting by having everyone wear the same colour, it will look great during video meetings!

### Movie Night

Have everyone watch the same movie and discuss it the next day! This is an excellent way to connect with your team personally.

### Recipe Round Up

Once a week, a team member can share one of their favorite recipes and everyone else can make it on a specific night. Eventually, you can create a team-based recipe book of the most successful recipes!

### Work Out Together

It can be difficult to stay healthy while working from home, but you can make it easier by working out with your team! Once a week, have a team workout session! Check out our [Healthy@Home resources](#) for ideas!

**Need to break the ice? Use these ideas to get to know a different side of your colleagues!**

- **2 truths, 1 lie** – Each team member takes a turn by telling two truths and one lie about themselves, and have the other team members guess which one is the lie.
- **Who has?** – Let everyone send in random facts about themselves, and try to guess which fact belongs to which colleague
- **Who's workstation is that?** – Everyone sends in a picture of their workstation at home, and team members guess which workstation corresponds to their colleagues
- **Who's most likely to?** – Prepare fun questions and answer them with your team, such as "Who's most likely to show up late to work?" or "Who's most likely to leave their microphone on during a virtual meeting?"
