WHEN COMPLETED

BREAST CANCER

If you have a family history or you might be at higher risk for breast cancer, talk to your doctor about the benefits and limitations of mammography. Women between the ages of 50-74 should have a mammogram every two years.

LEARN MORE

COLORECTAL CANCER

If you are between the ages of 50 to 74 and not at high risk for colorectal cancer, have a stool test every 2 years. If you are aged 75 or older, talk to your doctor about whether a stool test is right for you.

LEARN MORE

CERVICAL CANCER

If you have ever been sexually active, start having regular Pap tests by the time you are 21. You will need a Pap test every 1 to 3 years, depending on your previous test results. Talk to your doctor about your suggested Pap testing frequency.
