Get creative with mocktails

Try some new mocktail recipes using exciting fruity combinations, such as a mango mule or a pineapple ginger beer.

Opt for a dry bar

Serve flavorful mocktails or other non-alcoholic drinks, such as fruit punch, smoothies, carbonated drinks, coffee, tea, and water.

Celebrate with a themed party

Try hosting a themed party such as a Carnival, Winter Wonderland, Around the World, or popular movie-inspired themes.

Focus on food instead of drinks

Serve a variety of food options for guests to try, such as fruits, vegetables and dip, crackers and cheese, and other appetizers.

Host an activity-focused party

Try to get everyone involved through Icebreaker activities. Provide board games for guests to enjoy or host a trivia competition.

Keep busy with music and dancing

Create a lively playlist for the party or hire live music entertainment for guests to enjoy.

Go back to basics with coffee and tea

Serve lattes with exciting foam art for guests to talk about. Provide a variety of coffee and tea choices for guests to try.
